A BILL

FOR AN ACT ENTITLED

1 **"An Act relating to insurance coverage for contraceptives and related services; relating**
2 **to medical assistance coverage for contraceptives and related services; and providing for**
3 **an effective date."**

4 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

5 * **Section 1.** AS 21.42 is amended by adding a new section to read:

6 **Sec. 21.42.427. Coverage for contraceptives.** (a) A health care insurer that
7 offers, issues for delivery, delivers, or renews in the state a health care insurance plan
8 in the group or individual market shall

9 (1) provide coverage for

10 (A) prescription contraceptives;

11 (B) voluntary sterilization procedures; and

12 (C) consultations, examinations, procedures, and medical
13 services that are necessary to prescribe, dispense, insert, deliver, distribute,
14 administer, or remove the drugs, devices, and other products or services

1 provided under this paragraph;

2 (2) reimburse a health care provider or dispensing entity for dispensing
3 prescription contraceptives intended to last for a 12-month period for subsequent
4 dispensings of the same prescription contraceptive to the insured regardless of whether
5 the insured was enrolled in the health care insurance plan at the time of the first
6 dispensing.

7 (b) A health care insurer may not deny coverage or reimbursement under (a)
8 of this section because an insured changed contraceptive methods within a 12-month
9 period.

10 (c) Except as provided in (d) of this section, a health care insurer may not
11 offset the costs of compliance with (a) of this section and may not require copayments
12 or deductibles for contraceptives or services covered under (a) of this section.

13 (d) A health care insurer shall establish cost sharing for the coverage provided
14 under (a) of this section to the extent necessary to qualify a plan as a high deductible
15 health plan eligible for a health savings account tax deduction under 26 U.S.C. 223
16 (Internal Revenue Code).

17 (e) A health care insurer may not restrict or delay the coverage or
18 reimbursement required under (a) of this section, including use of medical
19 management techniques, such as denials, step therapy, or prior authorization, that limit
20 an insured's choice in accessing a full range of prescription contraceptives. Nothing in
21 this subsection prevents a health care insurer from enacting reasonable cost
22 containment measures in relation to the coverage required under (a) of this section if
23 the cost containment measure does not unreasonably limit choice in access to
24 coverage. In this subsection, "cost containment" means incentivizing the use of
25 generic or lower cost medications or the use of health care providers or pharmacies
26 that offer services or prescriptions at a lower negotiated rate.

27 (f) If the covered therapeutically equivalent version of a prescription
28 contraceptive is not available or is considered medically inadvisable by the health care
29 provider of the insured, a health care insurer shall provide coverage without cost
30 sharing for an alternative therapeutically equivalent version of the prescription
31 contraceptive that is prescribed for the insured.

(g) A health care insurer shall provide coverage and reimbursement under (a) of this section to all insureds enrolled in a health care insurance plan, including enrolled spouses and dependents.

(h) A health care insurer that offers, issues for delivery, delivers, or renews in the state a health care insurance plan in the group market to a religious employer is exempt from the requirements of this section with respect to the health care insurance plan of the religious employer if the religious employer opposes the coverage required under this section and is an organization that meets the criteria set out in 26 U.S.C. 6033(a)(3)(A)(i) or (iii) (Internal Revenue Code of 1986), as amended.

(i) In this section, "prescription contraceptive" means a drug or device that requires a prescription and is approved by the United States Food and Drug Administration to prevent pregnancy.
